

UH-1H/V ...

Remove It or Not?

Dear Windy,

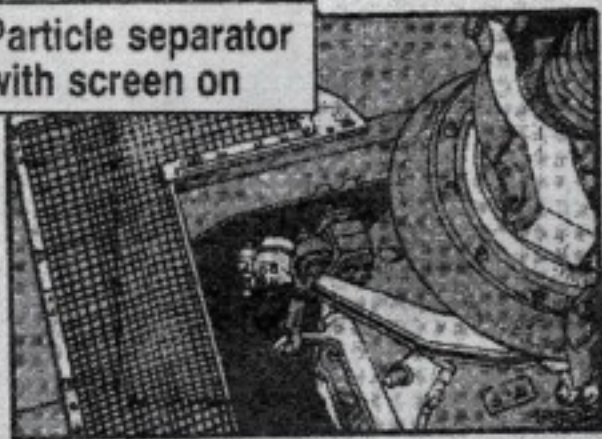

There is some confusion as to whether or not the top screen of the improved particle separator should be removed before flights in freezing rain. Should it or shouldn't it?

SFC F.H.G.

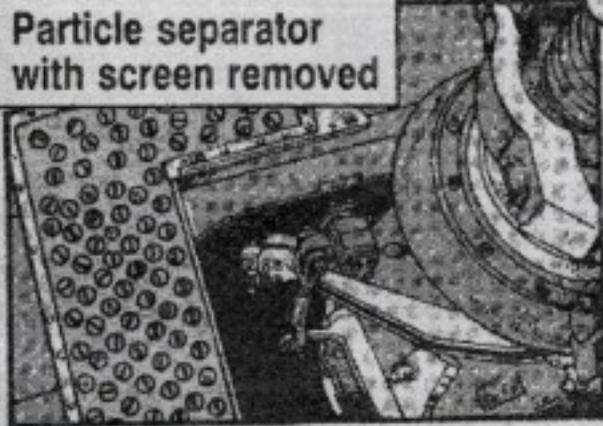

Dear Sergeant F.H.G.,

Yes, you should remove the upper screen when icing conditions are probable. The pilot makes that decision. Look for this info to be added to TM 55-1520-210-10.

Particle separator
with screen on

Particle separator
with screen removed

THANKS FOR WRITING.
